Civic Action Scorecard Planner

A free student-built planning tool for iCED's Civic Action Scorecard, 2026-2027 edition.

124
actions tracked

300
points to Gold

0
cost, accounts optional

civicactionplanner.github.io

WHAT IT DOES

- Four suggested phases pace the year; checking actions tracks points, breadth, and the next award level.
- A goal line shows the weekly pace to Bronze, Silver, or Gold by any target date.
- Every action carries its documentation requirement and the What, So What, Now What prompts, with draft boxes that count sentences against each prompt's minimum.
- "Open EngageMDC" lands on that exact action in the CAS group, one click from Add Impact. Each draft has a copy button matching the form's three boxes.
- Installs to a phone home screen and works offline. Optional Google sign-in syncs progress across devices.

WHAT IT IS NOT

An unofficial planning aid. It submits nothing, stores nothing on MDC systems, and costs iCED nothing. Reflections stay the student's own writing; the planner only carries their drafts to the form. Content is used under iCED's CC BY-NC-SA 4.0 license with attribution.

Built by Daniel Llobet (School for Advanced Studies, MDC Wolfson). Contact: daniel.llobet.v@gmail.com. Reliability: 67 automated checks run against the live site on every change and every Monday.
